Attachments: USGS DB 2010 RARE QAPP Final revision 0.doc; USGS DB 2010 RARE QAPP signature page.pdf; g5model-final.pdf

Here are the files that were in the attachment. I have one more resource to track down to get an example QAPP rather than a guidance which is attached.

Hi Wendy,

I have attached the QAPP from our RARE with USGS. I did not do a QAPP for the LANL work, because after reviewing the QA documentation already in place, we decided that the work Paul Reimus was going to do was covered.

I can't remember - is PNNL developing a model? I have attached the model guidance as well, just in case.

Valois

Valois,

For your RARE project, could PNNL use your QAPP as an example of how to construct one?

Thanks, Wendy
